WEBSITES FOR TYRE FITTERS

Website proposal

[date]

Prepared for: [**your tyre business**] · A website built only for tyre fitters — free to look, and you only pay if you like it.

A proper website for your tyre business.

Most of your work comes from people who already know you — and that's exactly how a good tyre business should run. A website simply helps the customers who *don't* know you yet find you when they search, lets them book while the workshop's shut, and gives your happy customers a proper place to send people. Here's what I'd build, and three simple ways to run it.

See it working first. There's a real, live example at neobookworm.uk/tyretrust — try the booking and reg look-up yourself. I built it for HE Tyres in Swindon; you're welcome to ask them about me.

TIER 1

The Site

£9.99 /month

To build: **pay what you think it's worth**

YOUR OWN TYRE WEBSITE

- ✓ Services, tyre brands, reviews, coverage & contact
- ✓ Built to show up when people search for tyres near you
- ✓ Works perfectly on a phone
- ✓ A proper place to send word-of-mouth customers
- ✓ Hosted & looked after — I handle the technical side

MOST CHOSEN

TIER 2

The Booking Engine

£19.99 /month

To build: **£149** one-off

EVERYTHING IN THE SITE, PLUS...

- ✓ Online booking — depot or mobile, day or night
- ✓ Email reminder the night before each job
- ✓ One-tap reschedule link — a cancellation becomes a rebooking
- ✓ Every booking drops into your calendar

TIER 3

The Full Bay

£49.99 /month

To build: **£349** one-off

EVERYTHING IN THE BOOKING ENGINE, PLUS...

- ✓ Reg & tyre-size look-up (plate → make, model, size)
- ✓ Address look-up for mobile jobs
- ✓ Text (SMS) reminders as well as email
- ✓ Automatic review requests + live Google rating on the site
- ✓ Your day on one page — a simple job dashboard
- ★ *Monthly allowance of look-ups & texts included — your bill stays predictable*

Every plan is month-to-month — cancel any time, and your web address & site files are always yours to keep. Running a busy multi-bay depot with hundreds of bookings a month? There's a higher-volume plan — just ask and I'll size it to you.

How it works

1

I build it first

I put together a real, working site for your business before you pay a penny.

2

You have a look

Try it on your phone, book a pretend slot, show your other half. Anything you'd change, I'll sort.

3

Go live

If you like it, we go live — pay what you think for the site, then the simple monthly. Cancel any time.

Why "pay what you think"?

I'm building my business the same way you built yours — one honest job at a time. The starter site (Tier 1) would normally be £299 to build, but I'd rather it goes live for you than sits on my server. So look at it properly, use it, and **pay me what feels fair**. No set-up fee on the starter site, no contract, no catch. You only add booking or the full kit later if you want to.

Ready to see yours? Email nick@neobookworm.uk or call **07494 653 018**.
